Going beyond

## Arandell's Environmental Policy:

**7.17.2017**

GOING BEYOND by providing thought leadership that encourages and supports actions that favor our natural environment.

GOING BEYOND by promoting the use of recycled and environmentally friendly materials throughout our organization by collaborating with associates, suppliers and customers to implement programs which limit the environmental impact of our product throughout its life-cycle.

GOING BEYOND by limiting the negative impact on the quality of air, water and land by offering our production facilities as a test site for new products.

GOING BEYOND by continuing to invest capital in the latest and most effective pollution control equipment. Arandell stays compliant with all environmental regulation requirements and pollution prevention.

GOING BEYOND by reducing our footprint on the environment by continually improving our products and our environmental programs.
